CONTENT CREATION

MASCOT MARKETING CONCEPT

Character Branding Strategy

The project was inspired by mascot-based branding used by brands such as:

- * Ronald McDonald
- * Colonel Sanders
- * Egyptian mascots like Bahig and Set Aziza

Instead of traditional historical content, **ALEXANDER** was transformed into a relatable digital personality that communicates directly with the audience.

التوجّة الإبداعي

(Creative Direction)

أسلوب السرد القصصي (Storytelling Approach)

كانت الفكرة الرئيسية للمشروع: The main idea of the project was:

ماذا لو عاد الإسكندر الأكبر ليري المدينة التي بُنيت تحت اسمه؟

“What if Alexander the Great returned to see the city that was built under his name?”

وقد تم تقديمه على أنه: It was presented as:

مدوّن فيديو
(Vlogger)

يشارك رحلته وتجربته
Shares his journey
and experience

راوي قصص
(Storyteller)

يروى القصص التاريخية
Tells historical stories

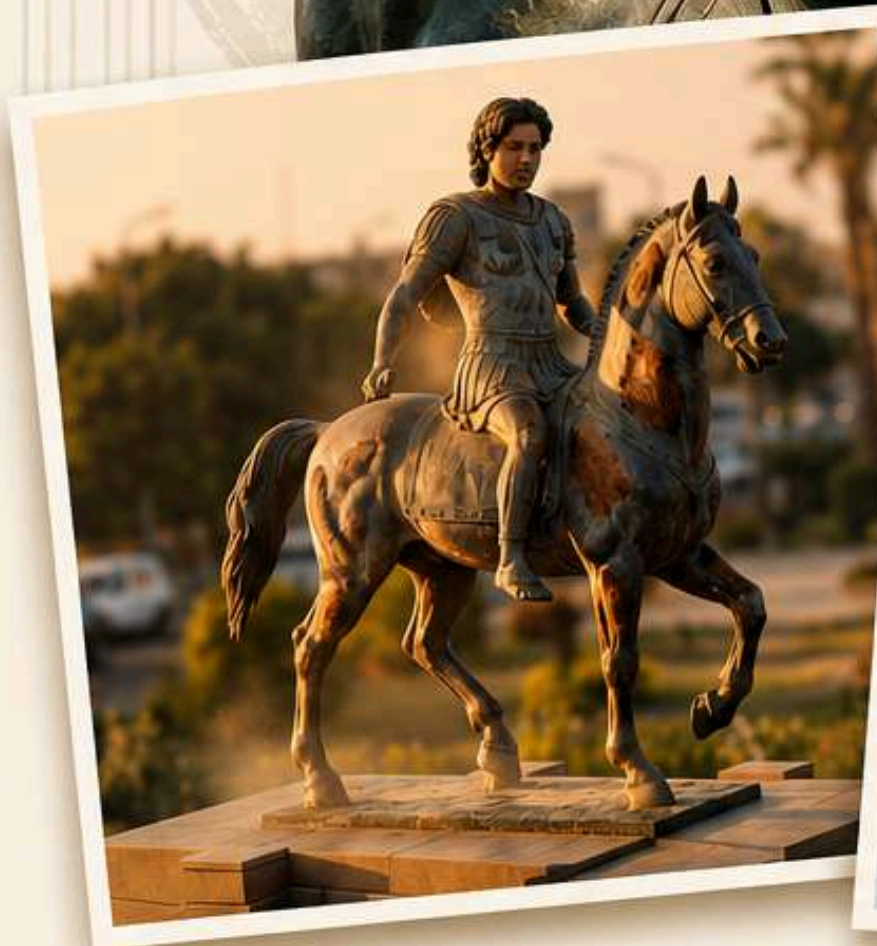

مستكشف ثقافي
(Cultural Explorer)

يكتشف الثقافة والحضارة
Explores culture
and civilization

وقد ساعد هذا الأسلوب في تقديم محتوى تاريخي تفاعلي وغامر يجذب الجمهور بطريقة ممتعة وحديثة.

This approach helped deliver interactive and immersive historical content that engages the audience in an enjoyable and modern way.

PRODUCTION PROCESS

PHOTOGRAPHY & COMPOSITION

Visual Production

I was responsible for the photography and visual direction of the project.

Photography principles used:

- * Framing
- * Rule of Thirds
- * Symmetry
- * Perspective Composition

The goal was to create cinematic and visually balanced content.

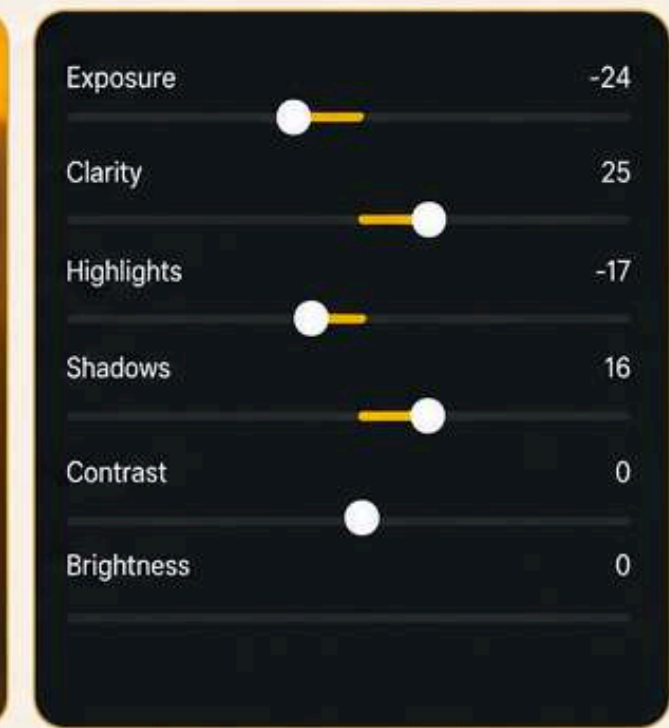

PRODUCTION PROCESS

EDITING WORKFLOW

Post-Production Process Tools

used:

- * CapCut , edits for video editing
 - * Adobe Lightroom for photo editing
 - * Add text , picsart for captions and text design
- The editing style focused on cinematic storytelling optimized for social media.

AI-ASSISTED PRODUCTION

AI is more than a tool — it's a creative partner.
From concept to final cut, AI helped speed up
the process while keeping the **vision human**.

AI TOOLS USED:

Luma AI

For creating
cinematic intro
videos.

ChatGPT 2.0

For generating
ideas, scripts &
content.

Gemini

For illustrative
images &
thumbnails.

AI-Assisted Production AI tools used:

* **Luma AI** for the intro video

* **ChatGPT2.0** , **gemini** for illustrative images and thumbnails

**AI SUPPORTS.
HUMAN CREATES.**

AI supported the creative process while the
artistic direction and storytelling remained
fully human-led.

Luma AI

C AI EXPERIMENTATION PROCESS

AI Video Generation & Audience Engagement

During the project, multiple AI models were tested to explore the best workflow for generating character-based content.

After finalizing the **Alex** avatar using Grok 

 **SEVERAL AI VIDEO GENERATION TOOLS** WERE EXPERIMENTED WITH, INCLUDING:

LMarena

Whisk

Google AI
Tools

CapCut AI
Features

ALEX

“

“I chose this spot to build a city... Alexandria.

A center of knowledge and power...”

”

Eventually, the workflow was built mainly using the paid version of **Creative Fabrica** because it provided access to multiple generation models, including **Seedance**.

**CREATIVE
FABRICA**
PAID VERSION

WHY CREATIVE FABRICA?

- ✓ Access to multiple AI generation models
- ✓ High quality & cinematic results
- ✓ Flexible & efficient workflow

**AI SCENES
& ENGAGEMENT**

The AI scenes were designed using recognizable Egyptian cultural references and trending cinematic styles to make the audience feel emotionally connected to the character while also keeping the content entertaining and lightweight.

AI CAMPAIGN EXAMPLES

Interactive AI-Based Contest Videos

To increase audience engagement, AI-generated videos were integrated into contest announcements.

FIRST CONTEST

The winners announcement was created as a cinematic parody inspired by the movie **مافيا**, using:

- AI-generated visuals
- Alex's AI voice
- The song "زي ما هي حبا" as background music

زي ما هي حبا... 🎵

SECOND CONTEST

After receiving strong audience interaction, a second AI video was created inspired by the iconic Egyptian TV series **Lan Aeesh Fi Gelbab Aby** starring Nour El-Sherif.

The scene recreated the famous dance sequence, then transitioned into an ending-credit style reveal showing the winners' names, similar to the series finale.

لن أعيش
في جلاب أبي

الفائزون

محمد أحمد
سارة محمود
أحمد مصطفى
نورهان علي
كريم سامي

These AI-driven videos generated highly positive audience reactions and significantly increased engagement.

AI VOICE OVER DEVELOPMENT

Egyptian Arabic Voice Generation

One of the main production challenges was finding an AI voice-over solution capable of generating natural Egyptian Arabic speech.

Several tools were tested, including:

- ElevenLabs
- However, the results were not fully aligned with the desired Egyptian dialect and delivery style.

The final voice-over workflow used the premium version of **lahajati**, which provided more accurate Egyptian Arabic pronunciation and emotional expression.

The project specifically used the "**Azzem**" voice character to create a more relatable and recognizable narration style for the audience.
